Invitation ...

Dear friends and colleagues,

We bring you greetings from the Nawabi city of Hyderabad on behalf of AOA India and the organizing secretariat of **AOA - 2015**, Hyderabad.

This is a unique one of its kind conference in Obstetric Anaesthesia. The obstetric anaesthesia societies across the globe viz. **OAA** (Obstetric Anaesthetists' Association, UK), **SOAP** (Society of Obstetric Anaesthesia and Perinatology, USA), **OASAO** (Obstetric Anaesthesia Society of Asia Oceania, Asia & Australia) have joined hands with **AOA** (Association of Obstetric Anaesthesiologists, India) for this 1st World Obstetric Anaesthesia Congress.

We invite you to avail this rare opportunity and exchange ideas and thoughts with the doyen in the field of Obstetric Anaesthesia and Obstetric Critical Care. Medical knowledge is ever changing and it becomes difficult to keep track of the latest evidence based practices due to the time constraints of a busy practice. We present you a platform in which you will find a solution to the dilemmas in our day to day practice along with updates in current knowledge.

All the sessions in the workshop and lectures have been planned diligently and meticulously in consultation with the brightest minds in the national and international field. We aim to ensure you go back, richer in knowledge and practice skills. The conference will convey the best practice globally to solve problems and offer solutions to the anesthesiologist in the field including recent advances.

On behalf of the Organizing Committee, we take great pleasure in informing you that the final Scientific Programme and workshop details for the 8th National Conference of AOA and 1st World Obstetric Anaesthesia Congress from 11th September to 13th September 2015 at Marriott Convention Centre, Hyderabad, is ready. A galaxy of International, Asian and National experts will be there to share their knowledge and wisdom with the participants. It encompasses all the important issues related to Safe Obstetric Anaesthetic practice both in developing and developed nations.

The "pearl city" is a fascinating mixture of history and modern technology. The famous biryani will satisfy the gourmet in you, while the monuments will whet your architectural appetite. This historical city is dotted with many architectural marvels that have been attracting tourists in hordes.

We look forward to the opportunity to give you and your family a taste the famous Hyderabad hospitality and warmth, while enriching the knowledge base. We look forward and hope that this meeting will be a memorable experience for all of you, as it will be for us.

Workshops...

WORKSHOP "A" : ADVANCED OBSTETRIC ANALGESIA

Local Coordinator : Dr. K. Sailaja, Dr. V. Aparna. National Coordinator: Dr. Kajal Sharma.
International Coordinator: Dr. Bhavani Shanker Kodali, USA.

LEARNING OBJECTIVES

- ▣ Understand why parturients need pain relief in labour
- ▣ Common effective techniques of providing pain relief in labour
- ▣ Understand various neuraxial techniques for Labour analgesia
- ▣ Learn step by step approach about initiating and maintaining a CNB for Labour
- ▣ Gain insight into trouble shooting and risk management strategies
- ▣ Tackling a parturient with a difficult back, Principles of Ultra Sonography

WORKSHOP "B" : CRITICAL INCIDENTS IN OBSTETRIC ANAESTHESIA

Local Coordinator : Dr. C. Bhagya Lakshmi. National Coordinator: Dr. Sunanda Gupta.
International Coordinator: Dr. Lawrence Tsen, SOAP, USA.

LEARNING OBJECTIVES

- ▣ Difficult Airway in Obstetrics: Drills and Practice / Complications of CNB
- ▣ Supra Glottic Devices : ILMA / C-Trach LMA / PLMA / I-Gel / Combitube and Laryngeal tube
- ▣ Video Endoscopic Devices : Retromolar intubation / Fiber optic Laryngoscopy
- ▣ Surgical Crico-thyrotomy, PCT, JV, Retrograde intubation, Surgical Airway access
- ▣ Interactive Webcast on Machine and Drug Errors
- ▣ Understand and Manage Refractory Hypoxemia, Hypotension and Arrhythmias

WORKSHOP "C" : CRITICAL CARE IN OBSTETRICS

Local Coordinator : Dr. C. Kousalya, Dr. Srilatha. National Coordinator: Dr. Anjan Trikha.
International Coordinator: Dr. Stephan Gatt, OASAO, Australia.

LEARNING OBJECTIVES

- ▣ Understand crisis management / Organ supportive care in Hypertensive disorders in pregnancy
- ▣ Eclampsia – PRES Syndrome Drill, Haemorrhage & Sepsis Drills
- ▣ Learn and Practice Setting up of Rapid infusion & warming devices, Cell Saver
- ▣ Goal directed Targeted resuscitation in maternal collapse with Audience response system
- ▣ Advanced Haemodynamic monitoring, USG guided cannulations, POC Coagulation, ABG,
- ▣ Clinical pearls in resuscitation and critically ill parturients / Setting up an OCC unit

WORKSHOP "D" : SIMULATION : SAVING MOTHERS LIVES

Local Coordinator : Dr. M. Manokanth. National Coordinator: Dr. Sunil T. Pandya.
International Coordinator: Dr. Makani Purva, OAA, UK.

LEARNING OBJECTIVES

- ▣ Understand the role of human factors in error and recognize error patterns in clinical practice
- ▣ Review management of obstetric anaesthetic emergencies through drills training

Quiz & Awards

POST GRADUATE QUIZ: BRAINOMACOLOGY 2015.

Life is an adventure and we are privileged to enjoy it. Each and every one of us needs a stimulus to partake of life, the stimulus varying according to the individual. It is the challenge to question the existing knowledge and the evidence behind every technique that is one of the stimuli to students. The need for an examination to measure one's knowledge is one academic challenge and a discretionary attitude before accepting information as gospel truths goes a long way towards progress in one's academic horizons.

We are throwing another interesting challenge to the students and one that goes a long way to making one's alma mater proud and will be a guru dakshina to the teachers. The mental challenge in which the winner brings laurel to one's institution is a source of great personal satisfaction to the participant in this quiz program of the conference. It is being conducted by a person who besides knowledge brings with him a great practical skill in his professional life – Dr. Chandrasekhar C.N.

The give and take and the repartee of a quiz bring a change from the didactic lectures which undoubtedly are important as it is given by the doyen in the field of anesthesia. The quiz is not only a test of subject knowledge, team work but also about spontaneity, quick thinking and leadership skills. It enables one to think on the spot which is one of the must skills of an anesthesiologist. It is a fun way to learning.

We are sure that the multifactorial assault to the intellect will make it an event that will linger long. We expect a big number in terms of participant as that will increase the chances of success to one's alma mater. So, inform all your friends and urge them to participate as the prestige of the institution is on line. On our part we promise to make this a quiz which you as a participant will enjoy as much as we the organizer will have in conducting it.

AWARDS

1st, 2nd & 3rd Best Posters
Best Research Paper
Best Case Report
Fellowship Certificates

Hyderabad Information...

Hyderabad, the fifth largest metropolis of India, is a joint capital of Andhra Pradesh & Telangana. It is 400 years old and is known for its rich history and culture with monuments, mosques and temples. The twin cities of Hyderabad and Secunderabad are separated by Hussain Sagar, an artificial lake constructed in 1562 A.D.

MAJOR ATTRACTIONS

■ CHARMINAR

Has been the identity of the city of Hyderabad for centuries. This four arched masterpiece of Qutub Shahi architecture, stands majestically amidst the lively bazaars of the Old city of Hyderabad. It is certainly more than an architectural marvel with a mosque on its second floor.

■ MECCA MASJID

About few meters away from the Charminar, this mosque is one of the biggest mosques in the world. This mosque is said to accommodate upto 10,000 worshipers at a time

■ SALAR JUNG MUSEUM

India's third largest museum, inspired by Mir Yusuf Ali Khan Salar Jung III, is said to have the largest one-man collection of antiques in the world. This museum displays about 45,000 exhibits from all parts of the world.

■ GOLCONDA FORT

The historic Golconda Fort lies 11 kilometers west of the city. It is one of the most renowned and historical fort complexes in India. The fort stands atop a hill with an elevation of 120 feet. This historical structure was founded originally in the 13th century by the Kakatiyas and later constructed by the Qutub Shahi kings from 1525 AD over a span of 62 years into a massive fort of granite extending over 5 square kilometers.

■ QUTUB SHAHI TOMBS

The famous tombs of the seven Qutub Shahi rulers are located 1 kilometer from the Golkonda Fort. No where in the world are there so many tombs (more than 20 tombs) at one place as here. All, except the last, of the **Qutub Shahi Sultans** lie buried here. In addition to these, many other tombs of the Royal family members are also seen here. These tombs famously known as 'Seven Tombs', are truly magnificent monuments

Hyderabad Information...

■ **HUSSAIN SAGAR**

This beautiful artificial lake, popularly known as Tankbund, is located in the heart of the city. Major attraction of the lake is the 18 meter tall, 350 tonne gigantic monolithic statue of Lord Buddha standing amidst the lake. Surrounding the lake are numerous parks and a host of other tourist attractions.

■ **BIRLA MANDIR**

Lord Balaji temple built by the Birlas on a hillock close to Tankbund. The temple is a quarter century old and built of white marble.

■ **RAMOJI FILM CITY**

RFC is the world's largest integrated film studio complex over 2,000 acres of land. It is also a popular tourism and recreation centre, containing both natural and artificial attractions including an amusement park.

CONNECTIVITY

■ **AIRWAYS:**

The nearest airport is the Rajiv Gandhi International Airport at Shamshabad, This airport is connected with all major cities in India by regular flights operated by major operators. There are flights in either direction between Hyderabad, Bangaluru, Mumbai, Kolkata, Delhi, Chennai, Bhubaneswar, Nagpur etc.

For general information regarding this airport click on the following link : "www.newhyderabadairport.com/services/connectivity_airport.html. From this link, you will also be able to procure information about the various modes of transportation available to and from the airport.

■ **RAILWAYS:**

The twin cities of Hyderabad and Secunderabad are extensively covered by the railway network consisting of regular express train services from major cities in India.

■ **ROADWAYS:**

The city has a well developed road network with National Highway No. 7 passing through the city. On the crossroads of National highways 7 and 9, Hyderabad is well connected.

■ **LOCAL TRANSPORT:**

There are local bus and auto services to ferry people across the city of Hyderabad. One can also avail prepaid taxis to travel from the airport and the railway station to the city centre.. Places in and around the city can also be visited by joining the tours organized by the Andhra Pradesh Travel Tourism or by any other local mode of transport..
